

ENGINEERING SERVICES OFFERED:

- 3D Solid Modeling
- Full Mold Design
- Mold Flow Analysis
- Software and File Types Supported
 - Pro/ENGINEER
 - KeyCreator
 - SolidWorks
 - Cimatron
 - Mastercam
 - CAM-TOOL
 - Step
 - Parasolid
 - IGES
 - DXF
 - DWG

MACHINING CAPABILITIES:

- High Speed Machining and Hardmilling
- CNC Wire EDM
- CNC Sink EDM

ADDITIONAL SERVICES OFFERED:

- Mold Qualification
- First Article Inspection
- Capability Studies
- Custom End Of Arm Tooling

WHO WE ARE

Since 1978, Mold-Tech, Inc. has served the injection molding industry designing and building the highest quality injection molds. These molds have included multi-cavity, hot runner, two-shot, auto unscrewing, metal injection, in-mold decorating, insert, shuttle, micro and silicone. Our state-of-the-art facility employs an experienced and dedicated staff that is focused on providing a quality product and superior customer service. The key to our success is our highly trained employees who are constantly looking for new technologies and process improvements to aid in the development of high quality molds. Our molds are designed and manufactured to the highest standards. This commitment provides our customers with exceptional value.

TYPES OF MOLDS INCLUDE:

- MULTI-CAVITY
- HOT RUNNER
- AUTO UNSCREWING
- IN-MOLD DECORATING
- INSERT
- MICRO
- LSR
- MIM
- SHUTTLE
- MULTI-SHOT

ON TIME, EVERY TIME

Over the last 5 years Mold-Tech has averaged a 99% on-time delivery record. Our customers trust that we will meet or exceed their delivery requirements and provide exceptional support for the life of the program.

PROVIDING QUALITY MOLDS-GUARANTEED

Mold-Tech, Inc. is committed to producing the highest quality molds for our customers. Our quality management system has been certified to the requirements of ISO since 2000. Mold-Tech's quality policy is "to deliver the highest quality products, on time and continually improve to meet our customers' requirements and ensure their satisfaction." This quality policy is the cornerstone of our business and is applied across all levels of our organization. The commitment to quality starts at the top of the corporate ladder and runs throughout the organization as we continuously strive for higher quality, cost reductions and efficiency improvements.

PRECISION MOLDS

The molds produced by Mold-Tech range from small to medium size for customers both large and small in a variety of different industries. Leading edge technology is employed in order to meet the changing needs of its customers. Being able to provide tight tolerance molds has been a key to the success of Mold-Tech. Each mold is built directly from the database that is used for the mold design to ensure consistency from cavity to cavity and mold to mold.

A DIFFERENT APPROACH

Our focus is customer service. Our business philosophy is to form a partnership with our customers from initial concept and design through final production and delivery. Our dedicated project managers ensure successful projects by maintaining effective communication throughout the process.
